WISSEN WORUM ES SICH DREHT

DEBURRING DISC FAPI-M14
- NOW ALSO IN **Ø125 MM** -

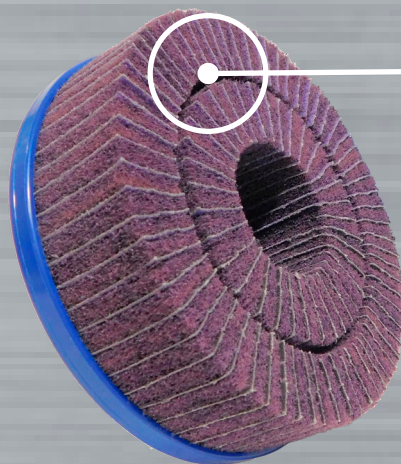

NEW!

**[ER] SINGLE ROW
COMPACT**

Standard version ER with compact arrangement suitable for general deburring tasks. The facing can be configured from hard to soft, depending on the abrasive fleece quality.

- better quality-price ratio
- higher proportion of abrasive fleece/cloth
- longer service life
- wider range of facing varieties
- premium qualities

**[DR] DOUBLE ROW
FLEXIBLE**

Facing version DR offers high flexibility. Particularly suitable for more complex and smaller internal contours, as the facing adapts well to the edges, thus providing a perfect and even deburring / rounding result.

*New! Now also available
as double row version!*
